

Controlled Release Society
2019 Award Nomination Form
College of Fellows
 Submit via email to
pgleason@controlledreleasesociety.org
Deadline: January 15, 2019

AWARD INFORMATION

A [nomination must be submitted by a member of CRS](#). A CRS member may nominate only one (1) person for Fellow in each annual call. In addition, there must be a supporting letter written by the nominator and one (1) additional member of the CRS.

Election to the College of Fellows is [only available to current members of CRS](#) who are at the level of full professor or at an equivalent rank for individuals working in industry or governmental agencies. Fellowship is the most prestigious level of membership of the CRS and hence, a maximum of five (5) new Fellowships will be awarded every year.

The College of Fellows recognizes CRS members who have made outstanding contributions to the field of delivery science and technology over a [minimum of 10 years](#). Contributions may have been technical, scientific, and/or managerial in one or more fields of research, commercial development, education, and/or leadership within the areas of interest to CRS. Fellowship is the most prestigious level of membership in CRS.

NOMINATION PACKET REQUIREMENTS

In addition returning this [completed application](#). The following items are to be as pdf files and emailed directly to info@controlledreleasesociety.org with a subject line of **COLLEGE OF FELLOWS AWARD by 11:59 ET January 15, 2019**. [\(no late or incomplete nominations will be accepted or eligible for consideration\)](#)

- A 200-word summary citation outlining the case for the award of fellow.
- A two-page (2) document highlighting the specific distinguished and sustained contributions of the applicant to the fields of delivery science and technology within the past 10 years. In particular, the nomination should show evidence of the nominee’s leadership, discuss three (3) key publications/patents and/or industrial/regulatory/managerial contributions by the nominee (e.g. marketed products, creation of companies, leadership in the development of regulatory guidelines, methods and technologies) and, if appropriate, describe the nominee’s service to the CRS (e.g. governance, organization of symposia and sessions, committee participation, editorships).
- A curriculum vitae (maximum 20 pages) that provides documentation of excellence as described in the two-page summary. The CV should include a list of awards (differentiating team versus singular recognition), refereed and non-refereed publications (indicating when the individual was the corresponding author and which publications were not from a refereed source), patents, invited presentations and grants. Of importance is the documentation of leadership in each of these cited activities or how the achievement was dependent upon the contributions of the candidate.
- **Two (2) letters of support – one from the nominator and one from another CRS member – no longer than one (1) page each.** The letter writers should indicate how long and in what capacity they have known the candidate. The letters should address the criteria above, noting the length, breadth, depth and impact of the contribution, and why the contributions would be rated as outstanding.
