

## Come into **Eurand's** world.

Eurand is a specialty pharmaceutical company that develops, manufactures and commercializes enhanced pharmaceutical and biopharmaceutical products based on its proprietary pharmaceutical technologies. Eurand is a global company with facilities in the U.S. and Europe. For more information, visit Eurand's website at [www.eurand.com](http://www.eurand.com)

We are currently seeking, for our R&D laboratories in Italy (**east of Milano**) a

### **Formulation Scientist (Post-Doc) - Ref. FS/PD09**

to contribute to the formulation activities of Pharmaceutical Development, by designing and conducting experiments to develop novel formulations for the products in Eurand's portfolio

#### **Tasks and responsibilities**

- Design and conduct formulation experiments selecting the most appropriate of the technology platforms available in Eurand to meet the target product profile.
- Identify and develop novel technology platforms which can be used to overcome formulation issues (e.g. poor/slow absorption, unpleasant taste, rapid eliminations, etc) of orally delivered compounds and generate intellectual property around these platforms.
- Generate the appropriate documentation related to the development and validation of the novel formulations.
- Miantain a state-of the art scientific/technical knowledge and disseminate the scientific information within the group.

**Requirements:** A university degree in Pharmacy/Pharmaceutical Technology as well as familiarity with the current scientific developments in the field of drug delivery (e.g. solubilisation techniques, biopharmaceutics, etc.) and a post-graduate specialization (PhD) in Pharmaceutical Technology and/or Biopharmaceutics are required.

#### **Professional skills and experience**

- Analytical and problem solving skills
- Communication, organizational and interpersonal skills
- Team player and flexibility

Any relevant industry experience in formulation development within an international company is an asset. Fluency in English is essential. Ability to converse in Italian (or willingness to learn Italian) is desirable.

To apply for this position, please forward your resume to **Gabriella Prunotto** at the address [hr@eurand.com](mailto:hr@eurand.com). The position will be open until **July 31th 2009**.
