

**Biography:**

Anette Müllertz, PhD, University of Copenhagen, Denmark.

Email: anette.mullertz@sund.ku.dk

Dr. Anette Müllertz is professor at the University of Copenhagen, Denmark (UCPH). She is heading Bioneer:FARMA, a research-based, non-for-profit service provider within the area of pharmaceutical development. She did her PhD in chemical engineering at the Technical University of Denmark and thereafter worked 9 years for Novo Nordisk A/S. In 1998 she joined UCPH, where she is heading the Physiological Pharmaceutics Research Group, focusing on developing predictive biopharmaceutics tools for oral drug delivery and lipid-based drug delivery systems. She has 220 publications in international, peer-refereed journals (h-factor: 59 (Google Scholar 10/1-2021)).
